

aqua watt

Zero Emission Boat Propulsion

aquawatt is situated in Austria. Here the lakes and rivers have drinking water quality. Since many years it is forbidden to use conventional boat motors. So we have a long tradition and 25 years experience in electric boating.

What we offer :

Electric boats and vessels

Electric outboards

Electric inboard motors

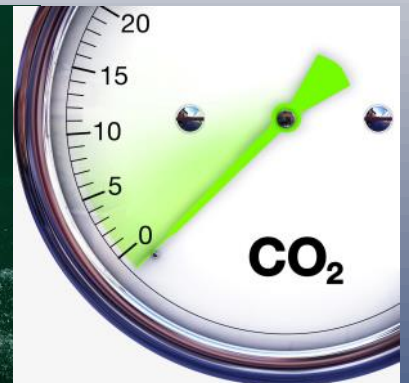

Lithium batteries

Solar boats

Components for electric boats

Technical consulting

Building inspection

by Dieter Seebacher

aquawatt

Solar boats and vessels

Electric battery powered motor yachts and boats with speeds up to 28 knots.

Cosmo 600 electric wakeboard and water ski boat

Electric tenders, working- and life guard boats

Electric fishing boats for fish- and mussel cultivation

www.aquawatt.at

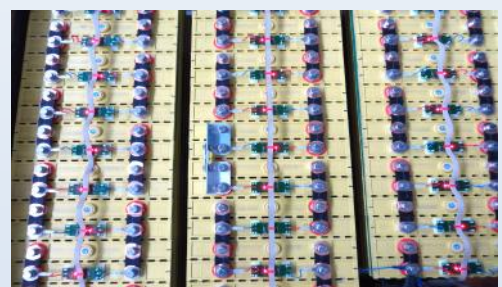

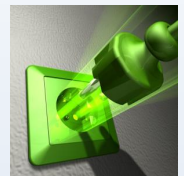

Full electric outboard- and inboard motors 4 to 50 kW

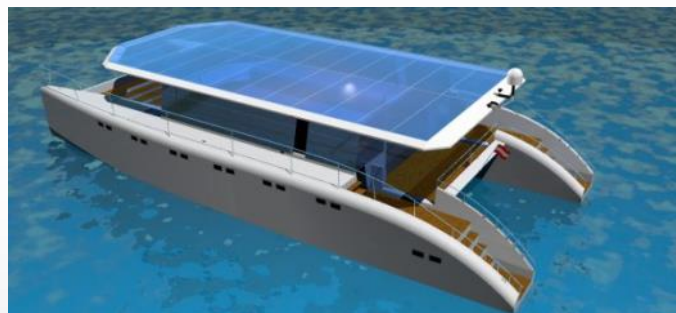

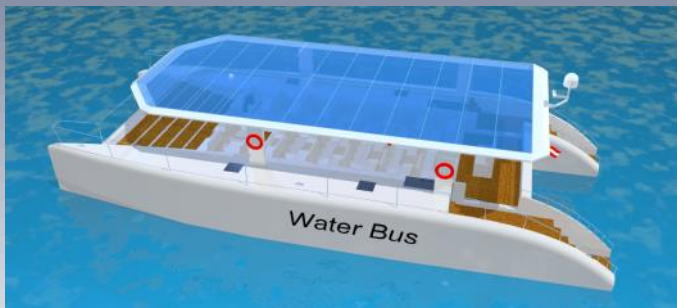

What we offer

Lithium ion high energy batteries for electric propulsion and on board supply.

We manufacture LI ion batteries to custom requirements in different sizes, housings, voltages and capacities.
One battery can be divided in 2 or 3 housings also.

aquawatt

New Diesel- Solar Hybrid
Technology for
Water Bus
Hospital Boat
Pleasure Boat
Research Vessel
Ocean Cleaning Boat
